Contents

01

Why Israel, Why Now

Market window and long-term fundamentals

02

Where the Yield Is

Areas, income models and an illustrative scenario

03

The Hands-Off Package

Everything we handle, even if you never visit

04

Costs, Tax and Next Steps

Budget, purchase tax, income tax and risks

One Team From Search to Monthly Payout

You set the goal and the budget. We find the property, coordinate the lawyer, set the apartment up, run it and send you the income, with one point of contact throughout.

What you do

Approve the shortlist, sign the documents remotely, transfer the funds. That is it.

01
Strategy

02
Search

03
Negotiate

04
Legal & close

05
Set up

06
Manage & pay
out

Independent lawyers, tax advisers and lenders handle the regulated work. We keep the whole process aligned.

SECTION 01

Why Israel, Why Now

A softer market today, strong fundamentals for the long term

Softer Prices Are Creating a Buyer's Window

-2.0%

Second-hand apartment prices, Tel Aviv District, Q2 2026 vs Q1 2026

+0.7%

Tel Aviv District prices, Jun–Jul 2026 vs May–Jun: early signs of recovery

2028

Purchase-tax brackets are frozen until January 2028, so costs are predictable

What this means for buyers: less competition, more room to negotiate price and payment terms, and motivated sellers who value a reliable buyer.

Source: Israel Central Bureau of Statistics, housing price releases, August–September 2026. District data describes averages; individual properties move differently.

LONG-TERM FUNDAMENTALS

Why Tel Aviv and Its Coast Hold Their Appeal

Scarce central land

Little room to build in prime coastal areas keeps supply tight.

Global Jewish demand

Tel Aviv is one of the most sought-after cities for Jewish buyers worldwide.

Jobs and population

Israel's business and tech hub, with a growing, young population.

Track record

Past dips, such as 2018 and late 2023, were followed by renewed growth.

Past performance does not guarantee future growth. Interest rates, security, tax and new supply can delay gains.

SECTION 02

Where the Yield Is

Match the area and the rental model to your goal

Yield Versus Growth: Four Areas We Focus On

Area	Entry price	Rental profile	Growth drivers	Watch out for
Tel Aviv prime	Highest	Lower yield, strongest resale liquidity	Scarcity, global demand	Yield rarely matches price
South Tel Aviv & Jaffa	Mid to high	Strong short-stay demand near beach and nightlife	Regeneration, new projects	Varies street by street
Bat Yam	Lower than Tel Aviv	Seafront, minutes from Tel Aviv	Light rail, urban renewal, new seafront	Heavy new-tower supply
Netanya	Moderate	Tourism and a large English- and French-speaking community	Coastal lifestyle, new seafront projects	Seasonality

Building, floor, legal rights, safe room (mamad), parking and short-stay rules often matter more than the neighbourhood name.

Two Ways to Earn: Long-Term Lease or Short Stays

Long-term lease

- Stable monthly rent, one tenant
- Low management effort
- Lower gross yield
- Typical in all four areas

Short-term stays (Airbnb)

- Higher potential gross income
- Full hospitality service needed
- Income varies by season
- Subject to building bylaws and possible new regulation

We model both options for every property, so you choose with the numbers in front of you.

Our Target: Up to About 6% Gross With Short Stays

Example: NIS 2,200,000 two-room apartment near the sea

	Long-term lease	Short stays
Assumption	NIS 5,500 / month	NIS 550 / night, 65% occupancy
Gross annual income	NIS 66,000	NIS 130,488
Gross yield	3.0%	5.9%

Plus potential long-term appreciation of the asset.

What comes off gross income

- Cleaning, linen and guest supplies
- Platform commission
- Management fee
- Arnona, utilities and internet
- Building fees and repairs
- Empty nights and seasonality
- Income tax

Before any offer, we prepare a property-specific net projection.

Illustration only, not a forecast or guarantee. Gross yield is before costs and taxes. Actual rent, rates and occupancy vary by property and season.

SECTION 03

The Hands-Off Package

You invest. We handle the rest, from search to monthly payout.

Everything Included in the Package

Sourcing

Shortlist matched to budget and yield target

Negotiation

Price, payment terms and conditions

Legal

Independent lawyer, title and permit checks

Remote signing

Power of attorney and online process

Set-up

Furnishing, photos and listing, ready to rent

Guests & cleaning

Check-in, cleaning and guest support

Maintenance

Repairs and trusted contractors

Monthly payout

Statement and net income to your bank

Short-stay management fees are quoted per property. Long-term management is typically 10–12% of monthly rent.

You Do Not Need to Be in Israel

1

Video viewings

Live walk-throughs and a written report on each shortlisted property.

2

Power of attorney

Notarised and apostilled abroad, so your lawyer can act for you.

3

Online signing

Contracts reviewed with your lawyer and signed remotely.

4

Planned transfers

Funds sent to match each contract payment, with compliance documents ready.

5

Keys to us

We receive the keys, set the apartment up and start renting.

The entire purchase can be completed without flying in.

TIMELINE

Typical Resale Timeline: About 6 to 12 Weeks

Financing, apostilles, bank compliance and new-construction projects can extend the schedule.

SECTION 04

Costs, Tax and Next Steps

Know the full budget before you make an offer

Your Budget Beyond the Purchase Price

Cost item	Indicative basis	When
Purchase tax	8% up to NIS 6,055,070; 10% above (investor rate)	Within 60 days of signing
Brokerage	Typically 2% + VAT	At contract
Lawyer	Agreed fee + VAT	Contract and closing
Banking and currency	Transfer, conversion and compliance fees	Before each payment
Furnishing and set-up	Quoted per apartment; needed for short stays	After handover
Management	Short stays: quoted per property. Long-term: typically 10–12% of rent	Monthly, from income

We provide a property-specific closing statement before you sign.

Purchase Tax for International Investors

8%

on the value up to NIS 6,055,070

10%

on the value above NIS
6,055,070

- Applies from the first shekel to non-residents and to buyers who already own an Israeli home.
- Brackets are frozen until January 2028.
- Moving to Israel? New-immigrant rates are far lower. Ask for our Olim guide.

Example

NIS 2,200,000 apartment

Purchase tax at 8%

NIS 176,000

Include it in the yield calculation: it is part of your real entry cost.

Source: Israel Tax Authority 2026 brackets. Family status, companies and trusts can change the result; your lawyer confirms before signing.

Tax on Rental Income and on Sale

Residential rent: three common routes

Route	Concept
Exemption route	Monthly ceiling and partial-exemption rules
10% track	10% on gross residential rent, no deductions
Net-income route	Tax on income after expenses and depreciation

Short-term stays may be treated differently from a residential lease. Your tax adviser confirms the route.

Tax may also arise in your home country. Review any applicable tax treaty with your adviser.

On sale: capital gains tax

Commonly 25% of the real (inflation-adjusted) gain for individuals. Exemptions for foreign residents are narrower.

Keep every invoice: purchase costs, fees and renovation can reduce the taxable gain.

Risks We Plan For With You

Short-stay rules

Building bylaws and possible national regulation of Airbnb-type rentals.

Currency

Payments are in shekels; the rate can move between payments.

Market cycles

Prices can fall as well as rise; we underwrite conservatively.

Seasonality

Short-stay income peaks in summer and holidays.

Security

Events in the region can affect tourism for a period.

Building & title

Permits, additions and shared rights are checked by the lawyer.

Our aim is an investment that still works on conservative rent, cost and exit assumptions.

Ready to See Properties That Fit Your Goal?

Share your budget, preferred areas and income goal. We will send a shortlist of properties with a yield projection for each.
